

Regional Installer

Role and Responsibilities

- To undertake risk assessments and to ensure that it is safe to work
- To bring any risks to the attention of the company management and if necessary to halt work until safe to do so
- To ensure all paperwork is available and that it has been reviewed and understood before setting out to site
- Complete all necessary job sheets, time sheets and other documentation as required
- To undertake all necessary pre-installation checks
- To liaise with client, other trades and third parties as indicated on work instructions
- To identify any changes to scope and report back to line manager as early as possible
- If requested to do so, to record any changes to scope as agreed by line manager
- To install equipment in line with company standards and current regulations
- To complete all post installation checks
- To keep in good working order any tools, equipment or vehicles supplied by the company
- To report any faults, breakages or equipment failures to your line manager

You will need to have:

- Practical experience of general installation and/or assembly
- 5 GCSE's at grade C or above (including Maths and English)
- Eligibility to work in the UK
- Full UK driving licence held for 12 months or longer and with less than 6 penalty points
- Availability to work between 8am and 6pm, Monday to Friday
- Willing and able to travel
